EXTERNAL M.A. DEGREE
PROGRAMS CONTINUED
AT COACHELLA VALLEY

The Chancellor's Office has notified the College that it has granted authorization to the Office of Continuing Education to extend the pilot periods for two external degree programs: M.A. in Education with Elementary Option and M.A. in Education with Counseling Option. The program has been extended through the 1978-79 academic year.

Approval was based on "the sound academic quality" of these financially viable programs and the fact that a continuing need for them exists. The two programs are located in the Coachella Valley and are coordinated by Lloyd Campbell, Assistant Prof., Education, through courses offered at various locations in the Coachella Valley School Districts.

Both programs have shown enrollment growth. The elementary option, first offered in 1973, currently has 17 students, with 25 new students recently admitted to the program for next Fall. Twelve students will graduate this summer. The counseling option, offered for the first time in the Fall of 1976, shows 34 new students admitted with 10 students scheduled for graduation at the end of the summer.

Dr. De Remer also served as Commencement coordinator for the College since 1970.

In his new position Dr. De Remer will also teach physics classes, one of the factors leading to his decision to accept the job. He also states that Whitman College administration is currently undergoing a reorganization and he will be
